Hopper Finishes

Walks with a Soul

Exterior and interior Hopper Venetian finishes create a foil for tasteful art and design, providing ageless beauty for the Royal Palms. Using custom plasters combined with French and Italian pigments, the "Aged Wall Collection" faithfully reproduces the beauty of old world villas, estancias, and Tuscan farmhouses.

Hopper Finishes have been used nationally in resorts, residential and commercial projects. Hopper manufactures their proprietary finishes in Arizona and imports specialty plaster from Milan, Amsterdam, and New Zealand.

All exterior and interior finishes at the Royal Palms are available through Hopper Finishes.

See Hopper Finishes on pages 50, 104, 168

Vallone Design

Donna Vallone (with co-designer Jana Parker-Lee) designed the Royal Palms' lobby, atrium, and Cervantes Room. The goal was to create an Old World Mediterranean ambience through the use of color, texture and architectural elements. Some of the materials used to achieve this are reclaimed railroad ties, custom designed concrete tiles, "Stucco" Venetian plaster and antique glazed French doors. The atrium welcomes guests with a "tile rug", hand-painted ceiling and rustic iron chandelier. Most recently Vallone Design completed the interiors for the Alvidora Spa.

Vallone Design specializes in both residential and "residential-like" commercial interiors.

See Donna Vallone's work on pages 4, 29, 61, 96, Cover.

*Desert Dream,
Desert Romance*

*A favorite room in the hotel,
The Cigar Room is located
just off the Lounge. The cozy
room has a unique leather floor,
deep-set sofas and powerful, but
quiet exhaust vents for smoke.*
